Include in its policies a provision providing for subrogation rights by the association in a case in which the association pays expenses on behalf of an individual who is injured or suffers a disease under circumstances creating a liability upon another person to pay damages to the extent of the expenses paid by the association but only to the extent the damages exceed the policy deductible and coinsurance amounts paid by the insured. The association may waive its subrogation rights if it determines that the exercise of the rights would be impractical, uneconomical, or would work a hardship on the insured.</p> |

All appointive boards, commissions, committees, and councils of the state established by the Code, if not otherwise provided by law, shall be gender balanced. No person shall be appointed or reappointed to any board, commission, committee, or council established by the Code if that appointment or reappointment would cause the number of members of the board, commission, committee, or council of one gender to be greater than one-half the membership of the board, commission, committee, or council plus one if the board, commission, committee, or council is composed of an odd number of members. If the board, commission, committee, or council is composed of an even number of members, not more than one-half of the membership shall be of one gender. If there are multiple appointing authorities for a board, commission, committee, or council, they shall consult each other to avoid a violation of this section.</p> <p>2. All appointive boards, commissions, committees, and councils of a political subdivision of the state that are established by the Code, if not otherwise provided by law, shall be gender balanced as provided by subsection 1 unless the political subdivision has made a good faith effort to appoint a qualified person to fill a vacancy on a board, commission, committee, or council in compliance with subsection 1 for a period of three months but has been unable to make a compliant appointment. In complying with the requirements of this subsection, political subdivisions shall utilize a fair and unbiased method of selecting the best qualified applicants. This subsection shall not prohibit an individual whose term expires prior to January 1, 2012, from being reappointed even though the reappointment continues an inequity in gender balance.</p> |

|       | How do fees compare with other states?       | Commission staff have researched authorization fee structures in other states. Specifically identified, many other states charge all institutions a fee for state authorization. Iowa does not currently assess a fee to all school types. Only schools authorized under registration or participating in SARA are assessed a fee. Also, states are often charging higher authorization fees to out-of-state institutions than in-state institutions. |

|                                | General mission                        | Iowa's funding formula is extremely complex. The school budget review committee exists to address fiscal concerns (e.g., spending authority), flexibility (e.g., allowable uses), and unique issues (e.g., new program start-up, deficit enterprise balance) outside of the statutory authority granted. The committee also monitors unexpended balances, fiscal reporting, and reviews corrective actions for districts not meeting requirements. The Committee may also recommend the revision of any rules, regulations, directives, or forms relating to school district budgeting and accounting, confer with local school boards or their representatives and make recommendations relating to any budgeting or accounting matters, and direct the director of the department of education or the director of the department of management to make studies and investigations of school costs in any school district. |
|                                | Statutory duties                       | There are a number of different funding mechanisms for school districts (e.g., special education deficit, funding for at-risk/dropout programs, supplementary weighting) that are funneled through the SBRC. There are a number of other finance processes that are reviewed by the committee for which action can be taken as a need measure for all districts (e.g., redistributing excess special education to funding for districts with deficit balances) or as a need measure for districts individually (e.g., spending authority, use of funds).                                                                                                                                                                                                                                                                                                                                                                    |

|                               | How members are selected               | Chair, director of DOM, and the vice-chairman director of DAS, are identified in statute and are none voting members. By rule other members are chosen by the director of DOM from a list of representatives provided by the agency they represent. Rule dictates the number of members each from large, medium, small agencies. If DAS services are also provided to the legislative and judicial branches, they choose a representative from their respective branches. |

|                                                         | General mission                        | See Code section 423.8, legislative finding and intent.<br>1. The general assembly finds that Iowa should enter into an agreement with one or more states to simplify and modernize sales and use tax administration in order to substantially reduce the burden of tax compliance for all sellers and for all types of commerce.<br>2. It is the intent of the general assembly that entering into this agreement will lead to simplification and modernization of the sales and use tax law and not to the imposition of new taxes or an increase or decrease in the existing number of exemptions, unless such a result is unavoidable under the terms of the agreement. Entering into this agreement should not cause businesses to sustain additional administrative burden.<br>3. It is the intent of the general assembly to provide Iowa sellers impacted by the agreement with the assistance necessary to alleviate administrative burdens that result in participation in the agreement. |

Iowa is a member of the SSTGB by virtue of the General Assembly's decision to be a party to the Streamlined Sales and Use Tax Agreement back in 2003. It is not a state-managed board. Rather, per Code section 423.9, the state has four representatives eligible to participate in SSTGB actions, such as amendments to the Agreement or finding other states not in compliance with the Agreement, along with representatives of each of the other 23 Streamlined member states. Only Director Mosiman (through a designee) actually participates; neither current legislative member has ever attended a meeting, and the Governor has not appointed a second executive branch representative pursuant to Code section 423.9(3)(a).                                                                                                                                                                                                                  |

The Technical Advisory Committee with the Iowa DOT reviews and awards the annual, competitive grant program that provides funding for IRVM activities to eligible cities, counties, and applicants with statewide impact. Iowa Code, Section 314.22: It is declared to be in the general public welfare of Iowa and a highway purpose for the vegetation of Iowa's roadsides to be preserved, planted, and maintained to be safe, visually interesting, ecologically integrated, and useful for many purposes. IRVM integrates the use of native vegetation with appropriate management techniques to produce a cost-effective, environmentally- sound management alternative for roadside weed and erosion control. To achieve Iowa's IRVM objectives, the State IRVM Plan is implemented along state highways through the coordination of the Iowa Department of Transportation. Additionally, many counties have adopted an IRVM plan for managing vegetation along their roadsides. |

|                           | General mission                        | Created by Iowa Code Chapter 307A, the Commission's duties are defined in Iowa Code Section 307A.2. In summary, Iowa Code directs the Commission to develop a long-range state transportation plan and annually approve a program of construction projects.                                                                                                                                                                                                                           |
|                           | Statutory duties                       | The primary statutory duty of the Commission is to prepare and adopt a multimodal state transportation plan (typically on a five-year cycle) and to prepare and adopt a Five-Year Program that identifies specific transportation projects to be developed/constructed based on estimated funding available. The Five-Year Program is adopted annually in June. The Commission also is required to approve all administrative rules prior to their adoption by the Iowa DOT director. |
|                           | Funding source                         | The Commission's operating costs (salary and support) are included in the Iowa DOT's operations budget. The Commission's Five-Year Program is funded with federal transportation funds, state legislative appropriations (e.g., State Recreational Trails, Public Transit Infrastructure, etc.), and state statutory appropriations (e.g., Road Use Tax Fund, State Aviation Fund).                                                                                                   |

In the case where the appointment of members of the general assembly is allowed, and the law does not otherwise provide, if an even number of legislators are appointed they shall be equally divided by political party affiliation; if an odd number of members of the general assembly are appointed, the number representing a certain political party shall not exceed the number of legislative members of the other political party who may be appointed by more than one.</p> <p>3. If there are multiple appointing authorities for a board, commission or council, the appointing authorities shall consult to avoid a violation of this section.</p> <p>4. This section shall not apply to any board, commission, or council established by the Code for which other restrictions regarding the political affiliations of members are provided by law by the Code, if not otherwise provided by law, shall be gender balanced. No person shall be appointed or reappointed to any board, commission, committee, or council established by the Code if that appointment or reappointment would cause the number of members of the board, commission, committee, or council of one gender to be greater than one-half the membership of the board, commission, committee, or council plus one if the board, commission, committee, or council is composed of an odd number of members. If the board, commission, committee, or council is composed of an even number of members, not more than one-half of the membership shall be of one gender. If there are multiple appointing authorities for a board, commission, committee, or council, they shall consult each other to avoid a violation of this section.</p> <p>2. All appointive boards, commissions, committees, and councils of a political subdivision of the state that are established by the Code, if not otherwise provided by law, shall be gender balanced as provided by subsection 1 unless the political subdivision has made a good faith effort to appoint a qualified person to fill a vacancy on a board, commission, committee, or council in compliance with subsection 1 for a period of three months but has been unable to make a compliant appointment. In complying with the requirements of this subsection, political subdivisions shall utilize a fair and unbiased method of selecting the best qualified applicants. This subsection shall not prohibit an individual whose term expires prior to January 1, 2012, from being reappointed even though the reappointment continues an inequity in gender balance.</p> |
