|                                      | General mission                        | The Interstate Commission for Juveniles, the governing body of the Interstate Compact for Juveniles, through means of joint and cooperative action among the compacting states, preserves child welfare and promotes public safety interests of citizens, including victims of juvenile offenders. With a focus on racial justice, the Commission provides enhanced accountability, enforcement, visibility, and communication in the return of juveniles who have left their state of residence without permission and in the cooperative supervision of delinquent juveniles who travel or relocate across state lines.                                                                                                                                                                                                                                                                                                              |
|                                      | Statutory duties                       | The compacting states to this Interstate Compact recognize that each state is responsible for the proper supervision or return of juveniles, delinquents and status offenders who are on probation or parole and who have absconded, escaped or run away from supervision and control and in so doing have endangered their own safety and the safety of others. The compacting states also recognize that each state is responsible for the safe return of juveniles who have run away from home and in doing so have left their state of residence. The compacting states also recognize that Congress, by enacting the Crime Control Act, 4 U.S.C. Section 112 (1965), has authorized and encouraged compacts for cooperative efforts and mutual assistance in the prevention of crime.                                                                                                                                             |

|                                        | General mission                        | The council shall develop programs and projects and enter into agreements for administering such programs and projects as provided in this chapter, including programs to enhance consumer and employee safety and training, provide for research and development of clean and efficient propane utilization equipment, inform and educate the public about safety and other issues associated with the use of propane, and develop programs and projects that provide assistance to persons who are eligible for the low-income home energy assistance program. The programs and projects shall be developed to attain equitable geographic distribution of their benefits to the fullest extent practicable. The costs of the programs and projects shall be paid with funds collected pursuant to section 101C.4. The council shall coordinate its programs and projects with propane industry trade associations and others as the council deems appropriate to provide efficient delivery of services and to avoid unnecessary duplication of activities. Issues concerning propane that are related to research and development, safety, education, and training shall be given priority by the council in the development of programs and projects. b. The council may develop energy efficiency programs dedicated to weatherization, acquisition and installation of energy-efficient customer appliances that qualify for energy star certification, installation of low-flow faucets and showerheads, and energy efficiency education. The council may by rule establish quality standards in relation to weatherization and appliance installation.                                                                                                                                                                                                                                                                                                                                                                                                                                       |

|                                        | Funding source                         | The council and its activities shall be funded by an annual assessment. Upon establishment of the council and each year thereafter the annual assessment shall be made at a rate of one-tenth of one cent on each gallon of odorized propane sold. 2. The owner of odorized propane at the time of odorization or at the time of import shall calculate the amount of the assessment based on the volume of odorized propane sold for use in this state. The assessment, when made, shall be listed as a separate line item on the bill of sale for the odorized propane and titled "Iowa propane education and research assessment". Assessments shall be collected by the owner from purchasers of the odorized propane and shall be paid by the owner to the council on a monthly basis by the twenty-fifth day of the month following the month the assessment was collected. If payment is not made to the council by the due date as required by this subsection, an interest penalty of one percent of any amount unpaid shall be imposed against the owner for each month or fraction of a month after the due date, until final payment is made. 3. Notwithstanding subsection 2, the council may establish an alternative means of collecting such assessments if the council determines that another method would be more efficient or effective and may establish an alternative late payment charge or interest penalty to be imposed on a person who fails to timely pay any amount due under this chapter to the council. 4. Pending the disbursement of assessments collected, the council shall invest moneys collected through assessments and any other moneys received by the council in any of the following: a. Obligations of the United States or any agency of the United States. b. General obligations of any state or political subdivision of any state. c. Any interest-bearing account or certificate of deposit of a bank that is a member of the federal reserve system. d.
